

Access Wireless Data Solutions (AWDS) responds to critical need in M2M wireless data communications market!

Land O'Lakes, FL.

President and founder, David Schwarz, former Sr. VP of Mobile Electron states, "These are exciting times in the M2M wireless data communications industry. With the wide spread growth and acceptance of M2M technology M2M has transitioned from an emerging niche market to a rapidly maturing industry segment. Customers need partners, not just vendors to provide the critical value added services and that can provide a broader range of products and solutions. Our consultative pre sales support process, our aggressive pricing and our technical support services uniquely positions AWDS to meet today's market needs for a diverse range of clients that encompass end-users, carriers, system integrators and OEM's".

AWDS specializes in commercial and industrial M2M wireless data communication products and services for fixed and mobile solutions, covering many vertical markets, including:

- Energy & Utilities
- Environmental Science
- Engineering/ Seismic
- Security/Surveillance
- Water/Waste Water
- Transportation
- Oil & Gas
- Agriculture
- Public Safety

"Our goal is simple: provide a single point of contact and a valued added experience for our clients, with an emphasis on technical service and customer support," stated Schwarz.

AWDS offers a complete line of products from the leading M2M industrial modem manufacturers including **Sierra Wireless AirLink, Sixnet BlueTree, Digi International and Telular Corporation**. The company also offers a complete line of antennas, cables and accessories.

AWDS has launched a new on-line webstore that features quick access to product datasheets and extensive product offerings. You can visit the store and website at: www.accesswds.com.

AWDS has entered into a new agreement with Cradlepoint and now offers a complete line of Cradlepoint's products and services. This new line of products will provide traveling professionals, work teams and remote or temporary field offices an instant, secure WiFi network for easy access to the internet via the cellular carrier networks or wireline connectivity the whole group can share. Working closely with cellular carrier partners **Verizon, AT&T and Sprint**, the company is very excited about the relationship and is looking forward to being able to offer Cradlepoint products to their clients.

Announcement Highlights:

- New on-line web store for wireless data and M2M solutions at www.accesswds.com.
- Relationships with wireless market leaders: Verizon, AT&T, and Sprint.
- Expanding product offerings through new agreement with Cradlepoint.
